Associated Press Telegram
HAVAS' AGENCY

London 9th.

Telegrams from Natal to the Colonial Office report that the Boers have recommenced hostilities against the English in the Transvaal: The Governor of Natal has sent reinforcements and the War Office and Admiralty are actively despatching fresh troops to pacify the territory.

LATEST NEWS.
PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Pernambuco 9th.

The Royal Mail steamer Tamar arrived here to-day.

Prince Bismarck, in replying to the interpellation of the Socialist Deputy Haenel in reference to the Imperial Rescript, said that the only object of its publication was to prevent the rights of the King of Prussia, as sovereign of the nation, from being encroached upon.

St Petersburg 25th.

The *Gazette* announces that an agreement has been come to between the Russian Government and the Porte, by which the latter agrees to pay ten millions of roubles annually till the war indemnity due to Russia is paid off.

Washington 26.

The jury have recognised Guiteau's guilt, scouting the idea of insanity.

Paris 26.

The Lottery for the Said and Algiers survivors was drawn to-day. Number 2,036,522 won the big prize.

Montevideo 9th.

Health of Empress of Russia very bad; she will go to Nice or Sicily.

Emperor William resolved to name the Imperial Prince, Regent of Prussia on the 22d March, when the Emperor will be 85 years old.

Italian army is being placed on a war footing, as if something sudden is expected.

At the opening of the Landtag, financial reforms and a loan for new railways are referred to. In reference to the religious Question, the Speech says that the friendly feeling between Prussia and the Vatican enable diplomatic relations to be resumed.

Magnificent fetes in Lisbon in honour of the King and Queen of Spain. Thirty pats paid for a single seat in the theatre.

Bull-fights here over; all the 'toreros' gone back to Spain.

Montevideo 10th.

Rumours about Garibaldi's illness exaggerated: he is pretty much as usual.

Jean Dupre, the great sculptor, died in Florence.

French papers consider Emperor William's Rescript to be a serious business.

Austrian War Minister resigned. Revolt in Dalmatia spreading, and Austria pouring in troops.

DONT EMIGRATE TO THE BOCA!

They have just published a little pamphlet about the Riachuelo that has made us fairly jump from our editorial chair and exclaim 'Can such things be?

Have any of our readers seen, read and studied this maritime brochure? There is nothing in the length and breadth of the Republic to beat it. Our Public land sales with their wondrous prices; our cattle 'rodeos' on the virgin lands of Lincoln that show a net increase of 40 p. cent; our very sheepfarmers who admit to a clear profit of 70,000 m/c from a single flock of sheep in less than two years—all fall short of the astounding figures of our Riachuelo.

Every man in the Boca trade must be growing too big for his boots—"*Dont emigrate to the Boca*"!

should be posted up on the roads in Ireland and Italy—for if the people, even on the far-famed lakes of Killarney, get hold of our Boca figures.

Adios! Landlords and tenants.

Adios! Parnell and Gladstone.

Adios! Landleague and Property protection.

Here are the figures; let them be written in letters of gold, but let us keep them to ourselves, not publish them in our Packet Edition, like Pizarro's mad-cap letters.

Foreign vessels entering Boca and their tonnage :—

	Vessels	Tonnage
1879.....	197	55,091
1880.....	261	69,917
1881.....	420	130,385

The foregoing figures only refer to what are termed 'ultramar' or foreign vessels. Let us now look at the coastwise and total trade of this Argentine *Clyde*.

	Total vessels	Tonnage
1877.....	18,167	284,505
1878.....	25,636	395,213
1879.....	21,576	577,964
1880.....	23,042	614,574
1881.....	32,886	827,072

Just imagine that the tonnage of this dirty, wretched, miserable little river, that but a few year ago was but a sewer for a few saladeros, and then a watering place for old Don Pepe Herrera's horses, reached last year the golden number of 827,072 and this year will surpass a million of tons.

Mackay's Bonanza mines will hardly beat the Boca figures. Clear it is that every man, woman and child down at the Boca must be on the millionaire high road. But for this little pamphlet we should have never known what is going on down there. Nothing in the Plate grows like the Boca; no, not even our abuses, our errors, or our subscription list—the Boca beats all.

EXHIBITION BENEFITS.

The extreme support which the Brazilian Government is affording to Brazilian exhibitors, the funds voted by the Government, the Committees named, the warehouse accommodation given in Rio for goods, and, finally, the free freight which the Brazilian Government accords for all articles for our exhibition, prove a friendship and a kindness that the Argentine people cannot fail to duly appreciate.

Strange fact—the two foreign countries that have shown most friendship and most support for our Exhibition are Brazil and Chile, nations that at times have come in for a full share of abuse, owing to some hot political question or national dispute. It is pleasant, however, to note how this struggling effort of National industry brings together, in the most friendly of all shapes, at the old Plaza Once de Setiembre, by far the three greatest nations of South America—Argentina, Brazil and Chile.

Many parties who view the improved state of Calle Rivadavia and the fine 'adoquin' pavement that is replacing the former wretched 'empedrado' exclaim—'Well, we owe all this to the Continental Exhibition at the Once!' But, in measuring the benefits of this Industrial Show, they should look further than the paving-stones of Calle Rivadavia, and every Argentine of brains, judgment and heart who has read the news from Rio, the splendid and willing aid the Imperial Government so spontaneously accords to Brazilian exhibitors, must admit that there is a real touch of national friendship in the matter, and that the Brazilians in this as on many previous occasions, have given Argentines the best of all proofs of National friendship and National esteem.

It would, indeed, be a graceful diplomatic step if the Argentine Government would send a formal invitation to the Emperor to come down and visit the Exhibition. Dom Pedro may be aptly termed the Exhibition Emperor. His visit to the Philadelphia Exhibition was creative of so much good that it has generated new trade currents, and now that we have the best of all proofs of Dom Pedro's great desire to help in every possible manner our Exhibition, we move that President Roca despatch Commodore Cordero in the Admiral Brown, with a special invitation to His Majesty for the Inauguration.

THE NEW MINISTER OF EDUCATION

We have much pleasure in announcing that Doctor Don Damazo Centeno will probably be the new Minister of Justice, Worship and Public Instruction, and freely confess that the appointment would be an excellent one, as very few men of 30, Dr Centeno's age, have rendered more public services. Dr Centeno, besides being an author, is a lawyer, editor and Deputy in the Provincial Legislature. In this quadruple character he has always taken the lead among the new and talented generation of his contemporaries, winning universal applause by his honourable and prudent character. He is the author of a Code of Diplomatic Organization, at present before Congress. This work has been most favourably reviewed, and the Secretary for Foreign Affairs remarks—'This Diplomatic Code is the most complete that has ever been compiled; in fact it forms a manual of diplomatic jurisprudence.

As a lawyer, Dr Centeno has distinguished himself, defending, with brilliancy difficult suits which had been declined by four leading lawyers, and obtaining a favourable verdict. As editor, he has always figured a liberal writer and on the side of law and the constitution, studying questions which interested the administrative and political organization of the Republic. As a legislator, he has had the glory of initiating and solving the gravest problems which have risen in the Provincial Parliament. All are aware that it was Dr Centeno who, as chairman and reporting member of the committee of constitutional affairs, initiated the debate on the capital question. His brilliant speech received at the time from all the papers the favourable notice it deserved. This remarkable speech revealed the broad national views that animated Dr Centeno, which were also further manifested by deeds later on.

Dr Centeno was the author of the bill granting $50,000 to the Province of Catamarca, which is the first instance of a Provincial Legislature giving such proofs of fraternity towards a sister province, forwarding part of her wealth to relieve its desolate condition. Hitherto the National authorities alone had taken such action. This generosity honoured Buenos Aires, and gained for it the sympathies of all the Interior Provinces. The Catamarca newspapers were full of gratitude for so generous and fraternal a proceeding.

Fatigued with the many tasks which had tried his physical and mental strength, Dr. Centeno left his country for Europe, intending to recruit his health and enrich his mind by contemplating the works and results of ancient civilisation. But even then he could not rest. Travelling through different countries he had occasion to observe, with pain and disappointment, that the Argentine Republic is totally unknown, and that its progress, its wealth, and the efforts of this young nation for South American liberty did not meet with the appreciation they were entitled to. In consequence, desisting from his idea of taking rest and recreation, he devoted himself to the creation of a centre of Argentine Propaganda, which was formed in Paris and placed under the Chairmanship of the great International Jurisconsult, Dr. D. Carlos Calvo. The Paris *Figaro*, referring to this event, alludes to the society in terms which honour the Argentine Republic. A member of the French Academy, M. Xavier Marmier, published a book in Paris on South America, and, treating of the Argentine Republic, relegated her to the rank of the most barbarous and retrograde nations. Every one is aware that in Paris there is an Argentine Legation with a Minister Plenipotentiary at its head, Secretaries and Attachés, General Immigration Agents and Commissaries, a Consul-General and a Consul in Paris, besides some three hundred Argentines living there to enjoy the pleasures of that beautiful capital. Not a pen was raised in defence of the Republic which the French writer had outraged; but Dr. Centeno felt indignant, and in a remarkable article, published by the *Memorial Diplomatique*, a leading Paris organ, he attacked the work of the academician, exposing the errors and calumnies in which he had indulged. This article of Dr. Centeno's was translated by some of the papers here and merited our warmest praise.

This brief sketch will give an idea of the citizen who is a candidate for the Ministry of Public Instruction. The body of Professors of Buenos Aires owe to him, as legislator, the initiation in the Chambers of some praiseworthy measures. He is the author of the Education Bill establishing the scale of Professorships, the competitions in pedagogy, and the pensions.

All these projects have been most favourably received by the press in this country, while the school masters, in letters which have been published at different times, have expressed their gratitude to Dr Centeno, who we believe is the very man to undertake the duties of Director of Public Instruction of the Nation, whilst his fame as a leading lawyer qualifies him for the portfolio of Public Justice.

If it is urged that he is very young, the same may be said of the President of the Republic, and yet the country was never more flourishing than at present, under the administration of youth.

On the contrary we join hands with our young friends, and say what is wanted in the National Cabinet is a youthful minister, to represent the new ideas of a pro-

gressive generation which is raising itself, here as elsewhere.

Was not Dr Bonifacio Lastra made Minister when as young as Dr Centeno, and perhaps with less experience and fewer services?

EDITOR'S TABLE

Havas telegrahs most important news. The Boer war has broken out again, and troops are being sent to the Cape from England.

The news from Washington—that the jury had made up their minds that Guiteau is not insane—causes general satisfaction, as it is a sentence of death on the murderer. It is well the trial is drawing to a close, as it has been anything but an edifying spectacle.

It was generally said yesterday that Dr Wilde is the Coming Man for the Public Instruction, Worship, and Justice portfolio. We have no fear of being contradicted when we say that Dr Wilde will be the right man in the right place with the triple portfolio under his arm.

A grand concert and conference is announced for to-morrow evening in that loveliest of villages—St Joseph of Flowers. It is under the auspices of the Libertad Society, and the proceeds will be divided between the victims of the Ring Theatre blaze in Vienna and the poor of Flores. We cannot fancy a more worthy object, and, as the programme is splendid and will be executed by members of the Quartette Society and many distinguished amateurs, we expect to report on Monday that the entertainment was a great success.

Should there be any old Australian who wishes to see the *Australasian*, we can lend it to him. It is a splendidly got up paper, with more matter than the *Times*, and bearing the stamp of a great paper, befitting a great colony. We see that they have a Land Question there as well as at home, and a Landlord and Tenant Bill is now before the Melbourne Legislative Council.

The Post Office is not so bad after all. The latest improvement is a half hard-cent stamp that will carry a light newspaper without a wrapper.

It is really no wonder that lands are fetching such high prices when auctioneers go to the trouble and expense of getting up such gorgeous maps as Mr Eulogium Cuenca has sent round of the 12 leagues of Cor. camp which he will offer for sale on the 12th inst. No eulogium could do justice to these maps. Bidders can see the grass growing and the water running. It's wonderful. The upset price is miserably low—only 1300 patacons.

The Military Commander of Luján is reported by our colleagues to be in trouble for eloping with two 'lovely gals,' both minors. Few men have the courage to take more than one lady on these interesting occasions.

Mr Thomas Sheil, the well-known 'confitero' and tea importer, requests us to correct an error that crept into the list of British Hospital subscriptions which we published some days ago, the amount collected by him being set down as by 'W Sheil.' The fault was not ours, however, but in the list supplied to us. A mere clerical error.

We are requested to say that the members of the American Methodist Episcopal Church in this city are invited to meet Bishop Harris this evening at the Parsonage, No. 214 Calle Corrientes. Yesterday evening the Bishop visited General Osborne at the United States Legation.

Only a few years ago sparrows were introduced into Australia, and already they have increased to such an excess that the Government of South Australia is offering a premium of sixpence a dozen for sparrows' heads. One witness assured the 'Sparrow Commission' that in ten days these formidable depredators had consumed a ton and a half of his grapes, and that they carried off the figs of five trees. Another witness said that in the season they took £30 worth of fruit, and another that three sowings of his peas were destroyed by the sparrows. No fruit or vegetable escapes them, and no method of repelling them is of any use.

The *Revista Medica* again reports the health of the city as good for the past fortnight. The frequent rains have proved the salvation of the capital this summer. But for them, anything might have happened.

Signor Monteverde, who cut the statue of Mazzini in Paseo Julio, has received an order from the Municipality for a crucifix in Carrara marble for the new chapel of the Recoleta Cemetery. It will cost 12,000 pats, and the artist will require five years to finish it.

We have received a neat circular requesting us to say that the local habitations and the names of fully one half the members of the newly started Club Liberal are unknown to the Secretary and he would feel obliged if the members would kindly send same to him in writing, at No. 42 Calle Rivadavia.

Mr Uriondo, whose prolific Muse never sleeps, has composed another Grand March which Mendelsohn himself would not be ashamed of. It is called 'Buenos Aires' and will be performed by all the military and foreign Societies' bands at the opening of the Exhibition. Whatever else may fall short, there will be no lack of music and literature at the coming Show.

The papers report that the barque Rapid has been caught seal-fishing on the Patagonian coast without permit. She is now at Montevideo, and unless she make a rapid departure for Europe, runs the risk of being seized and sold, as such, we believe, is the penalty for the offence.

We take the following from an exchange. It is certainly a feat for three mites of ten, seven, and four years of age to travel across the world alone:—"Three small children, a boy and two girls, respectively ten, seven, and four years old, arrived in St. Louis, a few weeks ago, having travelled thither all the way from Kulm, in Germany, without any escort or protection but their innocence and helplessness. Their parents, who had emigrated last year from the Fatherland and settled in Sedalia, Missouri, had left them in charge of an aunt, to whom in due time they forwarded a sum of money sufficient to pay the passage and other expenses of the little ones to their new home across the ocean. As they spoke not a word of any language save their own, in all probability they would never have arrived at their distination had not the relative in question provided them with a passport, not, truly, addressed to any earthly authority, but to Christian mankind at large; before taking leave of them she gave the elder girl a New Testament, instructing her to show it to every person who might accost her during her long voyage, and, in particular, to call attention to the first leaf in the book. Upon that leaf the wise and good woman had inscribed the names of the three children, their bithplace, and several ages, and a plain unvarnished statement to the effect that 'their father and mother in America were anxiously awaiting their arrival at Sedalia, Missouri,' followed by the irresistible appeal, their guide, safeguard, and interpreter throughout a journey of over four thousand miles—'Verily I say unto you, for as much as ye have done it unto one of the least of these, ye have done it unto Me.'"

One of the National Cabinet ministers has caused a sensation in the Red House by his expressed determination to put a stop to 'mate'-drinking by the clerks in his department. We cordially applaud the resolution: "Mates" bibbing in the middle of the day, or indeed at any time, is a dingy old-woman habit that Civil Service clerks should not indulge in. The bare idea of such a vulgar beverage would aopelessly shatter the nerves of 'a Treasury swell' in London or Paris, and the 'swells' of the Red House should give up such a tipple at once. Better drink beer, like Bismarck.

In Philadelphia they have brought out a new motor for tramways, nothing more or less than huge springs on the plan of a watch, and which are wound up every trip. The inventors say these spring motors well drive steam, compressed air and electricity out of the tramway field, being much cheaper and more certain in their action. As for horses, it seems to be generally admitted that before five years are about there will not be a horse tramway in any city in Europe or the U. States.

Another opera company besides Ferrari's is coming here for the Exhibition, and will sing in the Polis teama. Our private opinion is that our caterers of public amusement are counting far too much on the Exhibition and overdoing the thing. Some of them, if not all, will be hurt—pecuniarily.

The electric light of the ironclad Admiral Brown will be placed in the Exhibition. Not a good idea.

The prevailing idea about Carnival is that it will be quite as seedy, if not more so, than last year. The hat is now going round for the 'adorno de las calles,' but precious little is going into it. A colleague says that the Municipality will spend little or nothing on Carnival this year. It would, certainly, be sinful to do so while the poor Bondholders and the big debt to the old Gas Company remain unpaid. Sensible people are unutterably disgusted at the announcement that the 'pomito' nuisance is to be again tolerated this year.

A Cordoba colleague says that the telegrams from Gov. Celman about the Pizarro Epistles to the Athenians were apocryphal. It is about time to tell the public so.

A new colleague styled the 'Verdad Desnuda' is announced to appear to-day. It will be a novelty, as Madame Truth, now-a-days, generally wears so much clothing that it is hard to recognise her.

The *Pampa* says that wealthy European capitalists are about to propose to the National Government to open a National Hypothecary Bank, like the Provincial institution, but on a much unproved principle, with a large capital of its own, and branches all over the republic. This is the Trust and Loan Company.

The Lord Mayor addressed a vigorous note yesterday to the Chief Municipal Inspector, ordering him to put down summarily the indecent plays, songs etc to which the public are treated at a tea-garden called the 'Pasatiempo.' Turning the religion of the country into ridicule is another of the attractions at this delectable place of amusement. Better shut it up altogether.

Dn. Emilio Civit, Under-Secretary of Finance, is entertained this evening by several friends, at the Confiteria del Gas, on his election as Deputy to Congress.

All the camp towns are getting 'Water' on the brain. San Martin is now going in for Aguas Corrientes.

We were favoured yesterday with both volumes of Mr. Octavio Bunge's 'Viajes en Europa y America,' and promise ourself a rare treat in their perusal. The gifted author seems to have visited every country in Europe and a good part of North America. It is a pity Mr. Bunge did not run over from London to the Lakes of Killarney: the Swiss lakes are a mere patch on them.

We received a paper from Porta au-Prince yesterday, *Le Peuple*, a lively and newsy little sheet, whose 'Editor's Table' is styled 'Ca et La.'

Our quondam colleague, Don Hector Varela, has been named Emigration Agent in Spain, No better man for such a post. Mr. Varela's persuasive tongue will charm the Gallegos out to us in thousands.

There was a pretty big blaze yesterday morning before daybreak at the pomito factory near the Lacroze Tramway station in Calle Rivadavia. The Secretary of the Policia and the Bomberos rattled out from town as quickly as they could, but there was the old story—no water—but at about 6 o'clock the flames were mastered somehow. The loss is $30,000 m|c, a serious one in such a business. Nobody knows how the fire originated.

ON 'CHANGE.

Feb. 10th

Patacons	25.05
Cedulas A	99⅝
Cedulas E	84
National Bank Shares	127½

There is an evident weakness in the gold market, and the slight firmness for long dates noticeable yesterday gave way to-day. The supply of gold offering on Change is so large that gold will soon be quoted again at 25 for cash. Many of the operations carried on this morning were effected at 25.02 and portions under 25.05. The demand for gold at present in the market is very limited; the saladeros are doing little and remittances for up rivers are very small and will continue so for some time. To-day's operations in the market only amounted to a little over 60,000 pats at 25.05 for cash and 25.20 for end of March. Operations for end of June are effected at 25.40, which shows a fall of 10 cents. The gold transactions in general are insignificant.

There was an evident revival in Cedulas this morning, to judge by the stir in the market. A large number of Series A were sold for cash at 99⅞ and for the end of the month at the same rate, Series E shows a further decline and looks weak at its present quotation 84; a small amount of the latter Series was sold for end of March at 85. New buyers entered the market to-day, and a well-known broker bought large amounts.

The firm aspect of the National Bank Share market last night continued this morning. The stock is very reluctant and the bears have done little up to the present to influence prices much. There is, nevertheless, an acknowledged feeling of indecision in the market, and many wonder from what quarters the numerous shares sold emanate. The market is otherwise firm, and prices now look as hard as ever. The bulls attach much importance to the report of the Comision, not yet published. The market in general views the situation from two different stand-points: those who hold shares believe they will yet go to the skies, whilst those who have sold out anticipate a fall, many with a view of entering the market and buying at low rates. In the market at present we remark one or two heavy buyers and sellers, whilst others look on and watch the black-board. The operations during official hours amounted to little, only 2,300 shares sold; rates opened at 127 and rose steadily to 127⅞, and closed at 128, for end of the month. Nothing was done for cash.

The sales at the ring were as follows:—

For Feb. 11th 5,000 25.05
For Feb. 28th 10,000 at 25.10

Advices from Europe give the following failures in Bordeaux—

Messrs Piganneau, who failed, will pay up everything they owe; at least so a correspondence from France asserts.

The fire on board the Ptolemy was still the talk of the Bolsa. Matters were greatly exaggerated and the damage, we hear, does not amount to much. Had this fire occurred in Liverpool a hue and cry would have been raised all over the line, and dynamite, infernal machines and Fenians would have been at the bottom of it. These fires, caused by the greasy condition of the wools, are a warning to shippers, and henceforward agents will have to adopt some stringent measures to avoid a repetition of what has occurred on board the Delambre and Ptolemy. A fire like this in the Atlantic might be accompanied by very serious consequences, and it is to be hoped that something will now be done in these serious matters.

Messrs Scharfenorth & Sattler have chartered the Italian barque Tipo to load bales for channel and orders at 1s. 6d. and 5 p. cent.

Very little exchange done to-day at
49⅜-½ London
5.25-26 France
5.26-27 Antwerp
⅜ to ½ o/o prem. on Montevideo.

Discounts continue in the same condition at 8 per cent for paper and 7 p. cent for gold.

Municipal Bonds were offering on the market to-day at 110 p. cent. no buyers.

In the Once this morning the arrivals of wool only amounted to 2,500 arrobas. The Once is empty and sales are few.

The Strabo leaves to-morrow with the following cargo:—
2,700 bales wool
60 tons linseed
60 tons minerals
3,000 salted hides
84 boxes silver

The Hevelius leaves to-morrow; she takes the following cargo:—
2,500 bales wool
6,000 salted hides
550 pipes tallow
100 tons linseed.

We have been favored with the following important telegram from Antwerp:—
"Two-thirds of bales off red sold.
"Auction closes without change.
"Good wools 'bonne moyenne' 5 frcs.
"Financial situation unaltered.
"Little prospects of improvement."

The Bank discounted to-day 5,000,000 m/c

The barraqueros are much annoyed at the statements made by the *Nacion*, with regard to the bad condition of the bales shipped in the Ptolemy, they contributing to assicion flatly, and state that the linseed men are to blame for the fire. The barraqueros are right.

The Argentine Consul in Montevideo has ordered the embargo of the Spanish barque Rapida, owing to infringement of the laws of the Argentine Government on Fisheries in Patagonia. The barque it appears is laden with seal-skins. This embargo is a warning; no ship-captain can fish on the coast without a permit of the Argentine Government.

Messrs. Peltzer and McKay have chartered the Austrian brigantine Maria Zari to load 4500 qq. of jerked beef for Bahia and Pernambuco at 4 and 5 rls and 5 o/o.

In Salto, B O., the Spanish barque Nuevo Vigilante has been chartered to load 4500 qq of jerked beef for ports of Brazil at 4⅜, 5⅜, and 6⅜, and 5 o/o.

700 bales and some linseed have been taken out of the Ptolemy and put aboard another steamer of the line. The Ptolemy has suffered little: the wools were for Antwerp; she sails direct on the 17th.

At a late hour the news of the Casa Rosada was known; the new Ministers have been named at last, D Wilde is Minister of Worship and Dr Victorino de la Plaza takes the portfolio of the Interior. We welcome both these public men to their posts. The Bolsa applauds their nomination and they are considered the right men in the right place. Dr Wilde and Dr Plaza in the Cabinet means a clean sweep in the late policy; the opinions of both gentlemen are well-known to the market and we leave to coming events their best recommendations.

The Araucania has arrived in Montevideo.

Telegrams from Montevideo announce the sale of 3,000 hides from the Denis Saladero at 72½.

It was rumoured on 'Change at afterhours that Minister Romero had presented his resignation, but the rumour was discredited in general, as well as that of the government borrowing 200,000 £ from one of the private banks.

At afterhours some $135,000 were sold at 25.03, and some small amounts at 25.02½; the gold market looks very flat. In Cedulas we remark many buyers at 99⅝ for Series A, but very few sellers; the latter refuse to sell under par. In Series E some business was done at long dates at 85. The National Bank Share fluctuated much. The stock rose steadily from 128 to 128½; some 50 shares or more were sold at this rate. At a late hour a formidable bear made his appearance on the market and drove the stock from its positions: shares fell from 128½ to 128. The market closed at the latter rate between buyers and sellers for the end of the month.

The Sales at afterhours were—
Gold—

The following real estate sales were reported yesterday at the escribanias:—

Calle Paraguay, corner Ascuenaga, No. 380, 70 varas front by 70 vs. deep, for 235,000 m/c.

Corner Uruguay and Cordoba, 70 front by 34 deep, for 135,000 m/c.

The Banda Oriental is evidently on the mend, to judge by the figures of its statistical department up to the year 1880; unfortunately the figures for 1881 have not yet been published, which seems incredible, since we are now in the second month of 1882. The figures of exports and imports of the Banda Oriental during the last five years have been as follows:

	Import.	Export.	Total.
1876	$12,800,000	$13,737,000	$26,517,000
77	16,045,846	15,899,405	30,945,251
78	15,927,974	17,492,159	31,420,133
79	16,949,903	16,645,951	32,595,864
80	19,478,868	19,752,201	39,231,059

Thus we see that the trade of Uruguay in 1880 exceeds that of 1876 by about 13,000,000 pats, and that of 1879 by close on 7,000,000 pats. The city of Montevideo claims half the trade of the country, as the Custom Houses of Paysandu, Salto, &c., show a great increase as will be seen by the following table:—

Most of the imports naturally go through the city of Montevideo, as they arrive in ocean vessels; but in exports we see the great influence of the small towns on the river Uruguay with their saladeros and wheat plantations. Taken all in all, the Banda Oriental is progressing fast, and her indebtedness is not so large in comparison with her resources. With peace and order the Banda Oriental will inspire more confidence to foreign capital and gradually emulate the prosperity of the Sister States.

A morning colleague fairly took away one's breath with the announcement that several European capitalists had proposed to the National Government the establishment of a National Mortgage Bank. It is only too probable that herein reference is made to the new Land and Loan Trust Company.

We call attention to Mr G Gowland's great auction of land in this city; the advertisement will be found in another column. It is very seldom indeed that two squares of land in this city are offered for sale, and we congratulate Mr G Gowland on the prospects. The site of the land is familiar to all, and the upset price very moderate.

The National Government has appointed the following gentlemen to form the juries in the different markets of the city, to settle all disputes and disagreements:—

Most of the gentlemen appointed are well known to our readers; they are a guarantee of straight-forward proceeding, and of impartiality.

Messrs Ruano and Gomensoro, the well known Montevidean auctioneers, will sell by auction on the 11th Saturday, 160 tons of Cardiff coal that arrived per the Active, German barque.

The Shareholders of the Ferro-Carril Uruguayo del Este are summoned to a general meeting on the 24th inst. at 3 p.m. in the Calle Zabala No. 85, Montevideo.

The Patagonian coal from Skyring Water is gradually finding acceptance in the market. Messrs Somers and Miro in a letter to Mr B Gayol asked his opinion of the new coal; Mr C. states that the coal is good for domestic purposes, although weak, and that it replaces coke with great advantage.

M. H. de Surrel, a young French gentleman, has published in the *Economiste Français*, a most interesting article on the prospects of sugar production in this country. He prognosticates that in no distant day the Argentine Republic will produce enough sugar for consumption, thus putting a stop to the import of the staple from France. Mr Surrel advises Frenchmen to come to the country, with sugar machinery, and thus somewhat counterbalance the bad effects otherwise produced in French trade. We devoutly hope that the French manufacturers will take the hint and start branches of sugar-factories in Tucuman and Santiago del Estero. We extract the following figures from the article in question; they refer to sugar imports into the Argentine Republic:—

	1879	1878
	Kilos.	Kilos.
White sugar	6,408,841	7,698,050
Brut do	1,621,065	1,678,433
Refined do	14,898,591	13,019,409
Total	22,928,497	22,195,892

Imports from France and Belgium were as follows:—

	1879	1880
	Kilos.	Kilos.
France	4,252,966	3,134,085
Belgium	4,183,632	2,722,251
	8,436,598	5,856,336

A decrease of over 2,000,000 kilograms in one year. Meantime the sugar production of the Republic is increasing rapidly every year; the production in Tucuman has been as follows:—

	Square squares of cane.	Production in arrobas.
1876	600	100,000
77	200	120,000
78	1,000	160,000
79	1,400	500,000
80	1,600	720,000
81	2,000	800,000 (?)

Although 1881 was a very bad year, owing to bad weather, the yield was over 800,000 arrobas. We may expect vastly more during the current year, as the sugar plantations have not only greatly increased in Tucuman, but the sugar industry has sprung up in several other Provinces, especially Santiago del Estero. At this rate Argentines will soon produce enough sugar for themselves. In 1890 we will export sugar and wine.

The Captain of the Port's attention is called to the wreck of the Pride of Devon. This wreck is a permanent danger to the steamers in the outer roads, and the sooner the hulk is blown up the better. There is another wreck at Point Indio just in the way of steamers. Here we have a good opportunity of applying the torpedoes of the Major or Fy.

The ninth ordinary general meeting of the Western and Brazilian Telegraph Company (Limited) was held on the 6th January, afternoon at the City Terminus Hotel, Cannon-street, under the presidency of Sir H D Wolff, M. P.:—

"In moving the adoption of the report, the Chairman stated that the action which the Company had undertaken against certain parties had been compromised since the last meeting in the manner authorised by the shareholders, and only a small amount of the sum recoverable by the compromise now remained unpaid. It was, however, amply secured. The working expenses had been decreased by £4525; and, on the whole, the general prospects of the company were more satisfactory than they had been for some time past. The maintenance charges had been remarkably high for an enterprise of this kind, but they had really been more for renewals than maintenance. They hoped shortly that the whole of the revenue-earning portion of the cable would be entirely replaced by the sheathed type of cable, and they confidently anticipated, especially when the new cable now ordered was laid down, that the main tenance charges every year would be very largely reduced. They had dispatched Mr Cunningham [the secretary] to Brazil to try and come to some understanding with the Government with regard to the competition of the land lines. They were led to think that the Brazilian authorities were disposed to act favourably towards the company, and before long he trusted that they would be in a far better position than they were at present. Their position, however, would be much stronger in the negotiations, if it was known that they had a large amount of capital in hand, by means of which they would give some earnest of something advantageous resulting to the Brazilian Government, if they could enter into a successful engagement with them. With regard to the Central American Company's line, the directors were of opinion that matters should remain as they were for the present. The report was unanimously adopted, and the retiring directors and auditor having been re-appointed, the meeting terminated."

We have received the following for publication in this column:—

B. Aires, Feb. 10th, 1882.

To the Editor of the *Standard*,

Dear Sir,

I have read with pleasure your remarks in to-day's *Standard* upon Mr Hansen's report, and as one of the many who posted letters without the extra stamp for the str. Equateur after the board "Esta cerrada la balija" was put up, have to thank him for his courtesy in forwarding the letters; but if Mr Hansen would inform the public what clock guides the closing of the mails, he would to a great extent avoid a repetition of this occurrence, confer another favor upon the public, and receive the thanks of

On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp:— Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot No. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with nice roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid in forming this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zeuche, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

STATE OF IRELAND

Cork, Monday

A special train left Cork this morning for Millstreet conveying 150 men of the 60th Rifles and 150 men of the 20th Regiment, with the Hon. Captain Plunkett, R.M., and Mr. Mitchell, R.M. The train reached Millstreet at four o'clock, and at daybreak the men formed in skirmishing order around the town, guarding all approaches to the town, and allowing nobody to pass in or out. When this cordon was completed the police in the town proceeded to arrest several persons on suspicion of being concerned in the 'Moonlight' outrages that have occurred in the district. Ten arrests were made in the town and immediate vicinity, and three arrests were made, one at Mushra and two in the district. It is stated that Connell, the 'Moonlight' leader, who was arrested at Mushra last week, has given important information upon which the Government have acted with great promptitude. Considerable excitement was caused in Millstreet by the suddeness of the movement and the success of the swoop. The town was surrounded in order to prevent the possibility of some of the parties escaping when they heard of the arrests of the others. The prisoners were brought before Captain Plunkett, R.M., and remanded for eight days. They were subsequently removed by special train to Cork, and conveyed to the county gaol. The names of the prisoners are Sullivan, Cronin, Keefe, Corkery, Armstrong, Riordan, McSwiney, Connell, and four men named Murphy.

At the Dunmanway county Cork, Petty Sessions to-day, six members of the Ladies' Land League were prosecuted for holding an illegal meeting on Sunday, the 18th Dec. Sub-inspector O'Connell, who prosecuted, contended that the Ladies' League was but a continuance of the men's Land League, and hence it came within the proclamation of the Lord Lieutenant. Policemen gave evidence as to the nature of the speeches delivered by the ladies at the meeting, but the Bench said the evidence was not strong enough to warrant them to say that the meeting was illegal. The case was dismissed. The charges of abusive language to the police against two lady Land Leaguers were also dismissed on the ground that information in writing should have been made on which to ground the summonses.

At the Cork Assizes to-day the jury disagreed in the case of the three men, Begley, McCarthy, and O'Namara, who were charged with the midnight outrage near Farren. The jury were discharged, and the men were let out on their own recognisances to appear at the spring assizes. Two men named Mahony and Lehane pleaded guilty to a charge of riot and assault at Glengariffe on the occasion of the landlord, Mr White, having visited the district for the purpose of serving processes, Mr White did not press for punishment, and said his tenants had been most loyal to their engagements until the Land League was started. Sentence deferred.

Three men named Sullivan, White, and Kelly were charged with assaulting a process server named Hayes at Dunmanway on June 2. Hayes was engaged in serving writs when he was attacked by a crowd and beaten. The legal documents were taken from him and torn up. Sullivan and Kelly were acquitted, and the jury disagreed with regard to White.

This afternoon Mr Justice O'Hagan, Mr Litton, Q.C., and Mr Vernon, the three Land Commissioners, made their first appearance as a court of appeal. This was in the County Court House, Belfast, where the three Commissioners took their seats on the bench shortly after two o'clock. The court-house was crowded. The first case called was that of David Adam v. Jane Dunseath. Mr Dodd appeared for the tenant, and Mr Holmes, Solicitor-General for Ireland to the late Government, Mr Orr, and Mr Overend appeared for the landlady. It appeared that David Adam holds 42a. 1r. 5p., the valuation of which is £24 10s. and the rent he paid to Mrs. Dunseath was £36 10s. The Sub-Commissioners fixed the amount at £30 1?s. Against this the landlady appealed. There was also a cross appeal by the tenant. The case was not finished when the Court adjourned til to-morrow, (Tuesday).

To-night a largely-attended meeting of tenant farmers was held at Ballynuscaw, county Down, about six miles from Belfast, John Davidson, of Turf Lodge, presiding. Resolutions were adopted stating that, inasmuch as since 1855 the price of farm produce has greatly decreased and the wages of the farm labourers and tradesmen have greatly increased, it cannot reasonably be expected that occupying tenants can possibly pay rents so high as they formerly paid, and the meeting trusted that the Sub-Commissioners, with whose decisions on the whole they did not altogether find fault, would, in justice to the hard-worked tenant farmers of Ireland, take these facts fully and seriously into their consideration during the hearing of the cases yet to come before them. Another resolution expressed approval of the Land Bill, and stated the belief of those present that it would prove, if fairly administered, a remedy for the main evil that has cursed the country; but declaring that if the Ulster tenant farmers, who were an industrious class of people, were to continue in the farms where they have spent their capital they must have greater reductions in their rent.

THE ART OF TRAVELLING.

If you are travelling at night, with French fellow-travellers, the difference between English and French people will show considerably. The Frenchman will put on a soft silk cap, he will tie a handkerchief round his neck, he will even tie a scarf over his head and under his chin in order to be secure from the draughts, he will take off his boots and produce an old pair of slippers from his bag, and he will dispose himself for sleep, carefully covering himself with rugs. The Frenchwoman will be equally prudent. She will put on a loose long jacket, of pretty material and pretty make, you may be sure, and under this she can afford to loosen the tight dress bodice that fashion requires. She also will produce an elegant pair of slippers, matching the jacket, and will swathe her head and shoulders in a dainty woolen fichu, of the same color as jacket and slippers. In the early morning, when daylight is breaking over the silent land, and bursting in streaks into the carriage, the French travellers refresh themselves with an informal toilet. The lady pours some *eau de rose* or *eau de lavande* into a tin cup, and with the corner of a small towel brought on purpose in the hand-bag, wipes her face diligently. With her brush and comb she arranges her hair, and she adjusts her hat or bonnet, packs up her long jacket and slippers, &c., and is finally taut and trim when at the next station, it is announced that *cafe au lait* is served at the buffet, and that the train will stop for twenty minutes. We English more often tumble out of the railway-carriage in a condition that would lead one to think we had passed the night in a Welsh cabin. The English travellers disdain the precautions to which I have referred; they will declare that they cannot sleep in the train, therefore it would be useless to make any preparations. Presently they begin to nod and sway about, and finally, being only fallible human beings, fall asleep, their hats being flattened against the back of the carriage, their clothes being creased and tumbled, and their feet aching because of the unwonted confinement is stiff walking-boots. Thus they sleep in the utmost discomfort. When in the morning comes, then they are pitable to look upon, and seen in the early sunlight, it will be hard to believe that the Frenchman is not more learned in the art of travelling than the Englishman.

BARKER'S MARINE SAFETY SIGNAL.

From a long article in *Iron*, one of the leading scientific journals of London, we clip the following paragraph regarding a code of signals which has obtained decided favor among sea-faring men. The paragraph referred to will be of interest to our nautical readers and is as follows—

The excellent code of sound-signals devised by Captain Barker and given by his apparatus is, from first to last, systematically arranged, and is composed of eight signals, giving the approximate course of 32 points of the compass. All signals beginning with a long sound show the course to be eastward; those commencing with a short sound show the course to be westward. Signals ending with a short sound show the course to be southward. If the first sound is long and the last short the course is from N to W. If the first is long and the last long the course is from E to S. The first sound short and the last long gives positive proof that the course is from the South to west. It will thus be seen, as already stated, that the code is systematically arranged and easily mastered, being simplicity itself and giving perfect protection all the world over if generally adopted. We subjoin a graphic delineation of the code, which is as follows—

FOR EASTWARD-BOUND VESSELS

— — —	North to north-east.
— — — —	North east to east.
— — — — —	East to south-east.
— — — — — —	South-east to south.

FOS WESTWARD-BOUND VESSELS

— — —	South to south-west.
— — — —	South-west to west.
— — — — —	West to north-west.
— — — — — —	Nort-west to north.

It will thus be seen that signals beginning with a long sound indicate that the vessel is steering to the eastward, while those beginning with short sound indicate a westward course.

We may add that the machine is constructed to operate the steam-whistle on board of steamships, and the fog horn on sailing vessels. Should the steamship in fog become disabled and proceed under canvas, the fog-horn may be attached and sounded by compressed air without loss of time or difficulty.

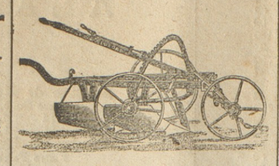
HOWARD'S IMPROVED AMERICAN PLOUGHS

Howard's Double Plough.

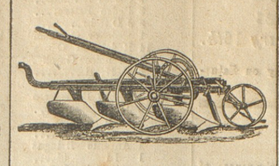


The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts.....
With steel breasts butwithout coulters
Weight 4½ cwt.

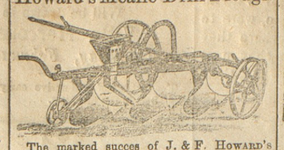
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 5½ cwt.

Howard's Mealie Drill Plough



The marked succes of J. & F. Howard's Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

Weigth 5½ cwt.
Maize Drill, £1 15s. extra.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism. Gout. Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d, boxes, 6d. and 1s. each.
